SHAPING THE FUTURE OF EQUINE HEALTH

Understanding the USEF Regulations

As of December 1, 2015, all USEF events will require horses entering the grounds to have documentation of vaccinations prior to competing.

Vaccinations for both Equine Influenza Virus (EIV) and Equine Herpesvirus (EHV) are required.

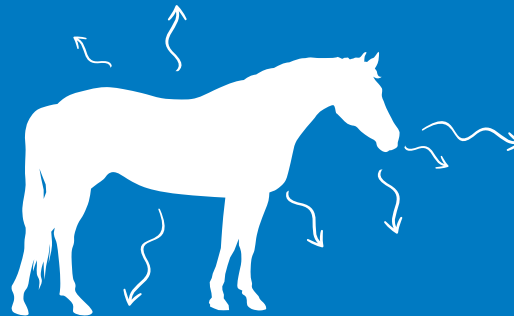

Vaccines must be administered within six months prior to entering the event grounds.

Boehringer Ingelheim Vetmedica, Inc. offers a wide variety of vaccines that meet USEF criteria.

What are signs of these two diseases?

EIV

- Fever
- Harsh, dry cough
- Nasal discharge
- Loss of appetite
- Muscle pain/weakness

EHV

- Fever
- Lethargy
- Anorexia
- Nasal discharge
- Cough
