MATERIAL SAFETY DATA SHEET

1 PRODUCT AND COMPANY IDENTIFICATION

Product Name: Feline Focus™ 3
(Feline Focus™ 3 is a trademark of Peak Marketing LLC)
Product No.: N/A
MSDS ID#: N/A
GHS Product Identifier: Not applicable
Synonyms: Rhinolin-CP, Spectra 7
Molecular Formula: Mixture, not applicable
Molecular Weight: Not applicable
CAS Number: Mixture, not applicable
Chemical Family: Vaccine
Manufactured by: Boehringer Ingelheim Vetmedica, Inc.
2621 North Belt Hwy
St. Joseph, MO 64506-2002
Distributed by: Peak Marketing
P.O. Box 279
Blue Springs, MO 64013

Intended Use:
Vaccine for healthy cats 9 weeks of age or older.

Emergency Telephone:
Transportation Emergency: (800) 424-9300
Medical Emergency (24HR): (800) 530-5432
Non-emergency: (800) 821-7467

2 HAZARDS IDENTIFICATION

Emergency Overview

Physical State: Package contains freeze-dried cake with liquid dilutent (2 vials)
Prior to rehydration: freeze-dried plug
After rehydration: liquid

Color: After rehydration: brown or amber
Odor: No data available

WARNING!
For veterinary use only.
For use in cats only.
Not for human use.
Precautionary Statements:
Accidental human injection can cause serious local reactions or anaphylactic reaction and systemic effects.
Keep at a temperature from 2° - 7° C (35°-45° F)
Fire-fighting: Use foam, carbon dioxide, dry powder and water fog or material appropriate for surrounding fire.
Avoid contact with eyes, skin and clothing.
Wash thoroughly with soap and water after handling.
Wear suitable gloves and eye/face protection.
Spills: Cover with absorbent or contain. Collect and dispose.
In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
If swallowed, seek medical advice immediately and show this container or label.
This material and its container must be disposed of in a safe way.
Keep out of reach of children.
Keep away from food, drink, and animal feedstuffs.

Acute effect: None known

Precautions/Contraindications: Do not vaccinate pregnant cats.

Dose/Administration: After rehydrating the dry vaccine using the bottle of 0.5 ml liquid vaccine, attach the applicator to the end of the syringe. Place a drop of reconstituted vaccine into the corner of each eye, then administer the remaining vaccine equally in each nostril as the animal inhales. This vaccine is NOT to be injected. Cats can be vaccinated at 12 weeks of age. If cats are vaccinated at less than 12 weeks of age, a second vaccination should be administered at 12-16 weeks of age. Annual revaccination is recommended.

Overdosage: None known

ADVERSE REACTIONS TO PRODUCT: The use of this biological product may produce anaphylaxis and/or other inflammatory immune-mediated hypersensitivity reactions. Some reports suggest that in cats, the administration of certain veterinary biologicals may induce the development of injection site fibrosarcomas.

Potential Health Effects

Inhalation: Not expected to be an inhalation hazard with prescribed use.

Eye Contact: Not expected to be a hazard to the eye with prescribed use. Exposure to liquid may cause mild transient eye irritation.

Skin Contact: Not expected to be a hazard to the skin with prescribed use.

Ingestion: Not expected to be an ingestion hazard with prescribed use. Ingestion may cause vomiting, nausea or other systemic effects.

Injection: Not applicable.

Chronic Health Effects: Possible hypersensitization (development of abnormal sensitivity).
Target Organ(s): Immune System

Potential Physical Effects: This vaccine contains live viruses. These viruses are not considered human pathogens; however, delayed-type hypersensitivities can occur in humans who have accidentally self-inoculated themselves. Symptoms include swelling, redness, pain, and loss of function at the inoculation site.

OSHA Regulatory Status: Non-hazardous, exempt

Environment: No data available

### 4 FIRST AID MEASURES

General: Animals or persons developing anaphylactic (life-threatening) reactions, such as difficulty in breathing or unconsciousness, must receive immediate medical attention.

Inhalation: Move to fresh air. Treat symptomatically. Get medical attention if symptoms persist.

Eye Contact: Any material that contacts the eye should be washed out immediately with water. If easy to do, remove contact lenses. Get medical attention if symptoms persist.

Skin Contact: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention if symptoms occur.

Ingestion: Call a physician or poison control center. Only induce vomiting at the instruction of medical personnel. Never give anything by mouth to an unconscious person.

Injection: In case of accidental injection, wash the site thoroughly. Contact a physician immediately.

Note to Physician: For animal use only. Not for human use. Status of tetanus immunization should be reviewed. Emergency procedures should be symptomatic and supportive.

Antidote: Epinephrine is indicated for anaphylactoid reactions.
5  FIRE-FIGHTING MEASURES

Extinguishing Media: Extinguish with foam, carbon dioxide, dry powder and water fog or material appropriate for surrounding fire.

Unsuitable Extinguishing Media: None known

Special Fire Fighting Procedures: Wear self-contained breathing apparatus and protective clothing.

Unusual Fire & Explosion Hazards: None known

Hazardous Combustion Products: Carbon monoxide, carbon dioxide

Flammability Class: 0

6  ACCIDENTAL RELEASE MEASURES

Personal Precautions: Wear appropriate personal protective equipment.

Spill Cleanup Methods: Small liquid spill: Wipe up or use a non-combustible material like vermiculite, earth or sand to soak up the product and place into container for later disposal. For large liquid spill: Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers.

Environmental Precautions: Prevent runoff from entering drains, sewers or streams. Dike for later disposal.

7  HANDLING AND STORAGE

Handling: Avoid contact with eyes, skin and clothing. Avoid accidental injection. Wash thoroughly with soap and water after handling. Use only with adequate ventilation.

Storage: Keep container closed. Store at 2°C - 7°C (35°F - 45°F). Do not freeze.

8  EXPOSURE CONTROLS / PERSONAL PROTECTION

For Industrial Exposures:

**Engineering Controls:** Not generally required when handling vials or containers. Good ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

**Respiratory Protection:** Not generally required when handling vials or containers. If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. In the United States of America, if respirators are used, a program should be instituted to assure compliance with OSHA standard 63 FR 1152, January 8, 1998. Respirator type: NIOSH approved organic vapor respirator.

**PERSONAL PROTECTIVE EQUIPMENT:** Not generally required when handling containers. If containers are compromised or exposure to the active ingredient or mixture is likely wear:

**Eye Protection:** Wear safety glasses with side shields (or goggles).

**Hand Protection:** Wear suitable gloves.

**Skin Protection:** Wear protective clothing appropriate for the risk of exposure.

**Hygiene Measures:** Eye bath, washing facilities

## 9 PHYSICAL AND CHEMICAL PROPERTIES

**Color:** Rehydration: amber to brown

**Odor:** None

**Odor Threshold:** No data available

**Physical State:** Prior to Rehydration: Freeze dried plug

After Rehydration: Liquid

**pH:** No data available

**Melting Point:** No data available

**Freezing Point:** No data available

**Boiling Point:** No data available
**Flash Point**: Non-flammable
**Flammability Limit – Upper (%):** Not applicable
**Flammability Limit – Lower (%):** Not applicable
**Evaporation rate**: No data available
**Vapor Pressure**: No data available
**Vapor Density (Air=1)**: No data available
**Specific Gravity**: No data available
**Solubility**: No data available
**Partition Coefficient (n-Octanol/water)**: No data available
**Autoignition Temperature**: Not applicable
**Decomposition Temperature**: Not applicable

### 10 STABILITY AND REACTIVITY

**Stability**: Stable

**Conditions to Avoid**: None known

**Incompatible Materials**: Strong oxidizing agents

**Hazardous Decomposition Products**: None known

**Possibility of Hazardous Reactions**: Hazardous polymerization will not occur.

### 11 TOXICOLOGICAL INFORMATION

**Specified Substances**

**Acute Toxicity**

<table>
<thead>
<tr>

<th>Test Results</th>
</tr>
</thead>
<tbody>
<tr>
<td>Feline Focus™ 3</td>
<td>No data available</td>
</tr>
</tbody>
</table>

This product is not considered pathogenic to humans (with eye contact, skin contact, injected or inhaled).

**Listed Carcinogens**: None

### 12 ECOLOGICAL INFORMATION

**Ecotoxicity**: No data available

**Persistence and degradability**: No data available

**Mobility in soil**: No data available

**Other adverse effects**: No data available

**Germany WGK**: Proprietary ingredient: Class: 1: slightly water-endangering; Natriumchlorid: Class: 1: slightly water-endangering; Amphotericin B: Class 3: severely water-endangering; Merthiolat: Class 3: severely water-endangering; ethyldiamintetrasigsäure mit natrium – und kaliumsalzen: Class 2: water-endangering.

### 13 DISPOSAL CONSIDERATIONS
**General Information:** Dispose of in accordance with local, state and federal regulations.

**Disposal Methods:** No specific disposal method required. Do not empty into drains; dispose of this material and its container in a safe way. Do not contaminate water, food, or feed by storage disposal.

**RCRA Information:** Not applicable

**Container:** Since emptied containers retain product residue, follow label warnings even after container is emptied.

### 14 TRANSPORT INFORMATION

**DOT:** Not regulated

**TDG:** Not regulated

**ADR/RID:** Not regulated

**IATA:** Not regulated

**IMDG:** Not regulated

### 15 REGULATORY INFORMATION

**Canadian Controlled Products Regulations:** This product has been classified according to the hazard criteria of the Canadian Controlled Products Regulations, Section 33, and the MSDS contains all required information.

**WHMIS Classification:** Noncontrolled, exempt

**Inventory Status**

Feline Calicivirus, Feline Distemper, Feline Rhinovirus and peptone are not listed on the following inventories: AICS (Australia), TSCA (United States), DSL (Canada), IECSC (China), EINECS (Europe), ENCS (Japan), KECI (Korea), ERMA (New Zealand), and PICCS (Philippines).

Saline, EDTA and thimerosal are listed on the following inventories: AICS (Australia), TSCA (United States), DSL (Canada), IECSC (China), EINECS (Europe), ENCS (Japan), KECI (Korea), ERMA (New Zealand), and PICCS (Philippines).

Proprietary ingredients are listed on the following inventories: AICS (Australia), TSCA (United States), DSL (Canada), IECSC (China), EINECS (Europe), ENCS (Japan), KECI (Korea), ERMA (New Zealand), and PICCS (Philippines).

Amphotericin B is exempt from listing on TSCA. It is listed on AICS (Australia), IECSC (China), EINECS (Europe), ENCS (Japan), ERMA (New Zealand), and PICCS (Philippines). It is not listed on DSL (Canada) or KECI (Korea).

**Canada CEPA Schedule 1** – Thimerosal is regulated under the generics group name mercury.
US Regulations
CERCLA Hazardous Substance List (40 CFR 302.4): Thimerosal regulated under generics group name: mercury compounds.

SARA Title III
Section 302 Extremely Hazardous Substance (40 CFR 355, Appendix A): Thimerosal regulated under generics group name: mercury compounds.

Clean Water Act Section 311 Hazardous Substances (40 CFR 117.3): None

State Regulations
Massachusetts Right-To-Know List: Ethylenediamine-tetraacetic acid (EDTA), thimerosal regulated under generics group name: organo (alkyl) mercury.
Minnesota Hazardous Substances List: Thimerosal regulated under generics group name: organo (alkyl) mercury.
New Jersey Right-To-Know List: Ethylenediamine tetraacetic acid, ID: 9117L; thimerosal regulated under generics group name: mercury compounds, liquid, nos
Pennsylvania Right-To-Know List: n, n’-1, 2-ethanediylbis [n-(carboxymethyl)-glycine; thimerosal regulated under generics group name: mercury alkyls
Rhode Island Right To-Know List: Thimerosal regulated under generics group name: mercury compounds

European Regulations
Austria MAK List (Annex I): Quecksilberverbindungen, organisch (als hg berechnet), s. aber methyquecksilber,einatembare fraktion
Denmark (Annex 3.6, April 2005): None
Germany (Dangerous Substances Ordinance 2004, Annex III): Alkyquecksilber
Norway (List of Dangerous Substance): Generics group name: Kvikksolvforbindelser, organiske, unntatt de same r nevnt andre stder I listen
Sweden (Sensitizers- Annex 3): None
