Research Proposal Submission Instructions for 2019 Funding

Specific Information
Provide the following information for each project proposal. The proposal must be typed in no less than 12-point font, double-spaced and a maximum of eight pages including cover and summary page. (Only the first eight pages will be read.) Restrict the use of scientific acronyms in your proposal.

Cover Page
- Complete accompanying form “Awards for Advancing Research in Respiratory Disease – Proposal Cover Page.” This form can be found on the website at SwineResearchAwards.com.
- Use form as cover page for each proposal copy.
- Include a one-page Curriculum Vitae for the primary investigator and each coinvestigator with the proposal, and attach at the end of the proposal (not included in the maximum eight pages).

Project Summary
- Complete accompanying form “Awards for Advancing Research in Respiratory Disease – Proposal Summary Page.” This form can be found on the website at SwineResearchAwards.com.
- The entire form must be limited to one page. Provide the information in nontechnical language.

Current Status of Problem
- Give a brief literature review.

Describe Earlier Related Research
- Research in this area or closely related field by principal investigator, and include no more than five citations.

Project Objectives
- List multiple objectives separately, and explain clearly the research questions to be answered.

Procedures to Achieve Objectives
- Include details of Experimental Design and Methods.
- Discuss and reference all assays, procedures and statistical tests used in the study.
- Document demonstrated expertise with proposed lab procedures.

For questions, please contact Reid Philips at 816-914-9864 or by email at reid.philips@boehringer-ingelheim.com
Schedule/Timeline

• Give timelines for proposed research (maximum of 12 months).

Value of Proposed Research

• Explain the value of the proposed research to the swine industry and relevance to producer priorities (one paragraph).

Budget for Project

• Overhead and indirect costs will NOT be covered by research funds; this includes all staff salaries. However, graduate student support, student hourly labor, and postdoctoral support are allowed. No equipment over $500 is allowed; this does not include disposable equipment such as test tubes, etc.
• Costs covered by this award must be indicated in a three-column format (i.e., University, Award for Advancing Research in Respiratory Disease and Total).
• List other funding requested or anticipated support for this project.

Letters of Recommendation

• Up to two letters of recommendation regarding the objective and the importance will be accepted.

Submission Instructions (Please Follow Precisely)

• Make a copy of the cover and summary page of this booklet, and attach as the first and second page of each proposal.
• Attach a one-page Curriculum Vitae to the back of the proposal.
• Attach any university information/signature pages behind the Curriculum Vitae.
• Fax copies will NOT be accepted.
• Digital or hard copy proposals will be accepted forms of submission.
• Email your proposal to Dr. Reid Philips at reid.philips@boehringer-ingelheim.com OR send one original (paper-clipped) and two stapled copies of your proposal to arrive by January 15th, 2019, to the address below.

Submit Your Proposal to:
Boehringer Ingelheim
Attn: Olaya Iturbe
3239 Satellite Blvd Bldg 500
Duluth, Georgia 30096
