

ANCHOR®

Arcanobacterium Pyogenes- Escherichia Coli-Pasteurella Multocida-Salmonella Typhimurium Antibody

Bovine Origin

Bo-Bac-2X™

250 mL

413701N-02

INDICATIONS: Recommended for the prophylaxis and treatment of disease caused by *Arcanobacterium pyogenes*, *Pasteurella multocida*, *Escherichia coli* and *Salmonella typhimurium* in cattle.

COMPOSITION: The concentrated serum is prepared from the blood of cattle hyperimmunized with *Arcanobacterium pyogenes*, *Pasteurella multocida* Carter's Serotype A, *Escherichia coli* serotype 78:K80:NM, and *Salmonella typhimurium*. Contains 0.2% cresol as a preservative.

DOSAGE AND DIRECTIONS: Prophylactic: 15 mL per 50 lbs. body weight administered subcutaneously as soon as possible after birth. Therapeutic: 30 mL per 50 lbs. body weight, repeat each 12 to 24 hours (depending upon condition of the animal) until improvement is satisfactory.

PRECAUTIONS: Store out of direct sunlight at a temperature between 35-45°F (2-7°C). Avoid freezing. Shake well before using. Use entire contents when first opened. Do not vaccinate within 21 days before slaughter. Do not vaccinate with bovine virus diarrhoea Type 1 or Type 2, bovine rhinotracheitis vaccine, bovine parainfluenza vaccine, or bovine respiratory syncytial virus vaccine, *Haemophilus somnus*, *Mannheimia haemolytica* and *Pasteurella multocida* bacterin toxoid within 21 days after use of this serum. Donor animals are hyperimmunized with the previous listed antigens which may cause interference with immunization. Anaphylactoid reactions may occur.

ANTIDOTE: Epinephrine.
